To whom it may concern:

This is a letter of reference for Jackie Huynh. Ms. Huynh has worked for our company for more than a year. In this time we have come to recognize her as an extremely dependable and competent employee. We initially hired her to implement a conversion to our new version electronic medical record system. Her prior experience as a trainer for Misys Healthcare made her ideally suited for this position. She demonstrated superior knowledge of the product and was invaluable to us in making this transition. She worked long hours, far beyond what would ordinarily be expected of any employee in order to be sure that the process progressed smoothly and efficiently.

After we hired her for the "IT" position we learned that she had experience in office management and promoted her to the operations manager for our 175 employee, 25 doctors and 11 Certified Midwife practice which operates out of 9 locations and diagnosis centers. She managed to be an integral part of our administrative team while continuing with the electronic medical records system conversion.

Needless to say, we are disappointed that she will be leaving our geographic area. Anyone who needs competent office management will be pleased with her qualifications and commitment to her job. I would recommend her without hesitation.

Sincerely,

John A. Burigo, M.D.

Vice President

Electronically signed by John A. Burigo, MD
